-  Includes natural fibres
-  Suitable for cool climates

INTRODUCING THE NEW *Heartfelt Collection*

Our dedication to positive ageing is woven into the homes and hearts of many Australians. It's at the heart of everything we do, and reflected in what we wear with pride.

Bringing together a collection of garments that connect us as one team, we're excited to reveal our new Heartfelt Collection. From first sketch to final stitch, this collection has been informed and designed in collaboration with employees from across our organisation.

Our journey began with focus groups, where team members provided input

into what they wanted and needed in a uniform. Then, sample garments were tested by team members through wearer trials, who shared their feedback on things like fit, functionality, comfort and style.

The final collection features interwoven hearts, reflecting our connected care and living options delivered by the combined strength of our dedicated national team. Overlaid with the wattle, a symbol of unity, our bespoke fabric is a beautiful statement of the heartfelt commitment we all share in helping people live and age positively.

Designed with you, FOR YOU

//

It is a shirt I would feel comfortable wearing each workday.

//

Garment is better than what we currently have, I prefer the bamboo garment.

//

Very beautiful and smart, enjoyed wearing it while in the office space.

//

Love the style of the printed blouse with pockets, it looked smart.

//

My favourite so far, wore it six times altogether, it's breathable.

//

Good ventilation, the bamboo shirt was a nicer material and has good stretch to it.

A SUSTAINABLE APPROACH

Sustainability has been stitched into every aspect of the new uniform, from the design and our choice of suppliers through to the fabric and features.

FOR YOUR COMFORT

Each garment has been designed to maximise comfort, practicality and performance, especially in frontline care roles. They include cross-back ventilation, practical elements like deeper pockets and breathable fabrics, and come in extended sizing.

COMMITTED TO MAKING A DIFFERENCE

Eco-friendly fabrics

Our rPET material is made from recycled plastic bottles. It is blended with bamboo, one of the fastest regenerating natural crops.

No hardware

Our new Heritage Polos are designed without buttons. This minimises the manufacturing of any excess trims.

Ethical practices

Responsible and ethical sourcing and manufacturing practices are strictly maintained across the value chain.

Recycling solutions

We've implemented a recycling process for old uniforms so they don't end up in landfill, and can be transformed for use again in a range of fabric products.

Heritage Polo

The Heritage Polo proudly represents the vocation, values and history we all share as an organisation.

Care Flex Top

The Care Flex symbolises our collaborative and compassionate approach to the care and support we provide.

Joy Tunic

The Joy Tunic reminds each of us of the opportunity we have to create moments of joy in every day.

Maternity

Lowers and Top

Garment Care

Garment care

- Always refer to the care label on the inside of each garment for specific instructions
- Hang garments on appropriate hangers

Ironing

- Iron wool-rich garments inside out to avoid unwanted shine
- Synthetic fabrics should be ironed on low temperatures
- Use of a pressing cloth will help to avoid fabric shining, particularly for wool and polyester garments

Machine washing

- Do not let garment get too dirty before washing
- Empty the pockets, unfasten the buttons and lift the collar of shirts before washing
- All garments are washed using cold water unless otherwise stated on the garment care label
- Separate whites from coloured garments

Dry cleaning

- Scarves should be dry cleaned only

Stains

- Pre-wash spray is recommended for stain removal

Shirts

- Always iron the collar away from the point. This prevents creasing on the collar
- High alkaline anti-perspirants should be avoided to reduce permanent stains appearing under arms

Trousers and skirts

- Hang your trousers full length from the bottom. This will help creases to drop out and prevent hanger marks
- If you need to re-crease your pants press one leg at a time
- Place a clean tea-towel or cloth over the trousers/skirt. Spray lightly with water and then iron
- Steam your trousers/skirts in the bathroom
- Let your trousers/skirts hang out of the wardrobe overnight to air after wearing
- Never hang in direct sunlight

Knitwear

- To dry, lie your knitwear flat on a natural-fibre towel, away from direct sunlight
- Store your knitwear only after it is completely dry
- Do not spin or tumble dry knitwear
- Always fold and store flat
- Remove pilling, loose fibres with a de-pilling comb

Measurement Guidelines

Here are some tips for measuring.

Using the correct measuring method will help you to make informed choices for your wardrobe selection.

It is important to measure yourself in the correct places as this will impact how well your wardrobe items fit.

Use a tape measure, keeping the tape taut but not stretched, ask a family member or friend to help you if necessary.

Record your measurements in centimetres.

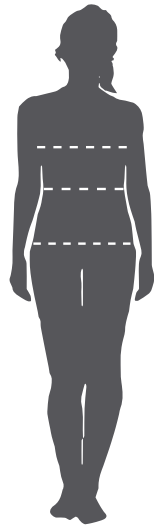

Women

- Waist – measure where your skirt or pant waistband usually sits, while holding two fingers between your body and the tape. Keep in mind that items are designed to be fastened at the waist, not the hips or above the waist. This reflects a classic fit.
- Bust – measure under your arms and around the fullest part of your chest, across the bust line. Hold two fingers between the body and the tape.
- Hips – measure around the fullest part of your hips (about 20 to 24cms down from the waist) while standing naturally. Hold two fingers between the body and the tape.

Men

- Neck – measure around the middle of your neck at collar level, keeping the tape loose to make allowance for comfort.
- Chest – measure under your arms and around the fullest part of your chest. Hold two fingers between the body and the tape.
- Waist – measure over your shirt at the position your trousers would normally sit. Hold two fingers between the body and the tape.

Once you have your individual measurements, refer to the sizing chart for each garment to find the correct sizes for you.
